Profile Summary

Pursuing B.Tech in Computer Science and Engineering with a strong foundation in software development, data structures, and algorithms. Proven ability to design and implement innovative solutions through hands-on experience in diverse projects. Seeking to leverage my skills in software engineering, problem-solving, and emerging technologies while continuously enhancing my expertise.

Skills

Programming Languages: C/C++, Python, SQL, JavaScript

Core Computer Science Fundamentals: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems, System Design (Basics), Computer Networks

Web & Backend Development: React.js, Node.js, Express.js, REST APIs, Authentication & Authorization

Database Technologies: PostgreSQL, MySQL, MongoDB

Cloud & DevOps: AWS (EC2, S3), Docker, CI/CD (Basics), Linux (Basics)

Tools & Version Control: Git, GitHub Actions, Jupyter Notebook, Postman

Other Skills: Analytical Thinking, Problem Solving, Statistics (Applied), Business Understanding

Projects

Placement Management System — Next.js, Redis, Docker, TailwindCSS, Python

- Developed a full-stack placement management system.
- Built a responsive and modern frontend using Next.js + TailwindCSS.
- Containerized microservices with Docker and optimized performance.

Briefly Email Categorizer and Summarizer — React.js, TailwindCSS, Node.js, Express.js, JWT, Hugging Face Inference API

- Built a full-stack web application that categorizes user emails and generates concise AI-powered summaries.
- Developed a responsive frontend using React.js + TailwindCSS and secure backend APIs using Node.js, Express.js, and JWT authentication.
- Integrated Hugging Face Inference API to generate high-quality NLP summaries with reliable processing.

Certifications

- Oracle Cloud Infrastructure AI Foundations – Oracle
- Foundations of Cybersecurity – Google
- Microsoft Azure AI Fundamentals (AI-900)

Achievements & Extracurricular

- Participant in national-level Smart India Hackathon (SIH).

Education

Lovely Professional University

B.Tech in Computer Science Engineering

Graduating 2027

CGPA: 7.09
